INSTALLATION

Tools:

Adjustable Wrench

Plumbers Putty

Sealant Tape

Rags

Model Number: K-5020 (CP, BN)

Warnings and Notes:

Check with local plumbing code requirements before installation.

This product should be installed by a local listed plumber.

Do not use plumbers putty on threads.

Installation Steps:

Single Handle Kitchen Pull-Down Faucet

(1) Shut off water supply. Remove old faucet. Clean mounting surface in preparation for new faucet.

(2) **For 1-Hole Installation :** Install 1-Hole mounting assembly on the faucet. Ensure there is a washer under the faucet. Place the faucet in position on the sink.

(3) **For 3-Hole Installation :** Install supplied deck plate underneath of the faucet. Apply plumbers putty under the base gasket. Place the faucet in position on the sink.

(4) From under the sink thread locknut to the faucet. Tighten the locknut with the help of supplied mounting tool.

(5) Install the weight on the pull-down spray hose. Adjust the weight so that the pull-down spray head is retractable. Connect pull-down spray head hose to the outlet hose.

(6) Connect hot and cold inlet supply hoses to supply stops. For 1/2" connection use 3/8" male to 1/2" female adapter for installation. Adapters are optional and not provided with the faucet.
