

PLC Lighting 6W Black Non Dimmable Republic LED S. Exterior Lite

Product Description:

If you are looking for a stunning Exterior Lite that is exceptionally good value for money then look no further than the Small LED Exterior Lite from the Republic Collection. Constructed using the highest quality powder coated steel with an opal acrylic lens complete with a kiss style pattern in steel which sets the design off beautifully and makes it far more than just an Exterior Lite fitting. Measuring 12" in height and 6" in width with a 4" ADA extension. The light has an integral 6W LED bulb that is housed within the casing and produces a warm, soft glow. Whilst this is an ideal choice for a patio area, it is durable and hard wearing enough for you to use in any outside space. The jet black finish complements the light immensely and brings the entire design together perfectly.

Product Details:
